

COVID-19

Novel Coronavirus

Total solution for COVID-19 test: from preparation to analysis

Nucleic Acid Isolation and Purification

Thermo Fisher KingFisher Flex
(96-preps high throughput)

MagMax Viral/Pathogen
Nucleic Acid Isolation Kit

Nucleic Acid Quantification

Thermo Fisher Multiskan
Sky with μDrop Plate (up to
16 consecutive sample
measurement)

Analysis

Agilent AriaMX
Real-Time PCR System

Real-Time PCR
Genesig Q32 & Genesig Q16

KingFisher Flex: Rapid and Reproducible Purification System

KingFisher Flex offer a flexible solution for different types of sample processing needs.

- Fully automated system yields high-speed purification of nucleic acids and reproducible outcomes.
- High throughput system processes up to 96 samples.
- Open and flexible system.
- Easy-to-use with ready-made protocols for different type of applications are available.

The genesig Easy DNA/RNA Extraction Kit allows DNA/RNA and RNA extraction from virtually any sample type using magnetic bead technology- it's fast, and incredibly easy to perform.

- Extracts DNA/RNA and RNA with high yields <60 minutes
- Works with huge range of sample types
- Safe protocol with no phenolic chemicals
- No centrifuge or electrical equipment required- for use in the lab or in the field

- Rapid detection of nCoV-2019
- Positive copy number standard curve for quantification
- Highly specific detection profile
- High priming efficiency
- Broad dynamic detection range (>6 logs)
- Sensitive to < 100 copies of target

PRODUCT DESCRIPTION

KIT SIZES

CATALOGUE NO.

Genesig Standard qPCR Detection Kit for Coronavirus (Strain 2019-nCoV)*

150 reactions

Z-Path-2019-nCoV-Std

Genesig Advanced qPCR Detection Kit for Coronavirus (Strain 2019-nCoV)*

150 reactions

Z-Path-2019-nCoV

Genesig Easy qPCR Detection Kit for Coronavirus (Strain 2019-nCoV)*

50 reactions

Z-Path-2019-nCoV-Easy

Genesig qPCR Detection kit for Coronavirus (Covid-19) CE-IVD

96 reactions

Z-Path-COVID-19-CE

*genesig® kits are sold for research use only and are not licensed for diagnostic procedures.
