ART Barrier tips provide 100% security against aerosol and liquid contamination. When touched by any liquids, the unique **dense filter will block itself so no liquids or even aerosol can pass through the barrier.**

That unique feature will protect both your sample and pipette. Preserving the integrity of your sample and your PCR conditions, it is **the only tips that can provide you with 100% guaranteed protection** against carryover and cross contamination.

The low retention technology will give you a maximum sample recovery. The tips hydrophobic inner surfaces significantly reduces sample loss to adhesion and maximize sample recovery.

When using Thermo Scientific™ ART™ Barrier Tips, the self-sealing barrier helps protect both pipettes and samples against contamination, blocking the passage of:

- Aerosols
- Liquids
- Radioisotope-labeled samples
- Biological materials

Pipette tips with traditional filter

Pipette tips with ART Barrier

Also available: RNA AWAY and DNA AWAY. Eliminates Rnase and DNA from laboratory surfaces Ideal for decontaminating apparatus, bench-tops, glassware and plasticware.

TSX Series  
Ultra-Low Freezers
